

# How to use your Task-It™ Basket

Use your Task-It Basket for anything:

- Make up
- CD's
- DVD's
- Catch all for keys and cell phones
- Gift baskets
- Napkins
- Dinner rolls
- Wash cloths
- Diapers, candy
- Remote controls
- Sewing Notions
- The list is endless.

Open the basket and fold down the top about 2".

Put your hand inside the corner and put the seams on the bottom together with the seam on the side, fold up the corner and tie it with the tie from the folded edge of the top. Tie both sides.

Put both hands inside the basket and smooth the sides out.

To use as a travel make up bag, simply put your make up in the basket, fold the top in half over to the bottom and tie the ties together. Once you get to your destination, untie the ties, and fold down the top, tie the corners and you have your make up ready to use.
